

eSett Oy is a company formed and jointly owned by the three Nordic Transmission System Operators (TSO) Fingrid Oy, Statnett SF and Svenska kraftnät and it is headquartered in Finland. eSett provides imbalance settlement services to the electricity market participants in Finland, Norway and Sweden. The purpose of the imbalance settlement is to establish financial balance in the electricity market after the operation hour. Our customers are energy companies that are active in the Nordic Energy Market.

We are strengthening our team and searching for an

ICT Specialist

to a new position, for providing support to our ICT operations and coordinating our outsourced ICT services and external service providers.

We are a young working team with great spirit and work closely together. We are looking for a service-minded person ready to take on the responsibility for ensuring smooth operation of eSett's ICT, including infrastructure, telecommunication and other office solutions.

In your daily work you will operate close to the business, helping with routines and acting as a back-up for documentation. You will also be involved in developing ICT processes related to the business operations as well as administration of eSett's ICT.

To be a successful candidate you have:

- Some work experience in the field of ICT and good understanding of IT infra, databases (MySQL, Oracle, SQL queries) and integrations.
- As a plus, prior knowledge of especially Microsoft technologies (AX Dynamics, Hyper-V, Office).
- Basic understanding of ICT service management (ITIL), vendor management and programming.
- Fluency in Finnish and English, both spoken and written.
- Business-oriented way of doing things and interest towards energy markets.
- Relevant education for the position.

You have personal qualities like:

- Attitude to work hands-on as well as take on tasks outside your job description whenever needed.
- Capacity to fill any competence gaps through learning, with eagerness to develop yourself as an ICT specialist.
- Good collaboration, team work and communication skills.
- Diligent and accurate working methods.
- Ability to independently manage operations in your responsibility.
- Ability to take initiative and independently solve problems.

eSett Oy offers you a great opportunity to be part of a successful international Nordic company and a possibility develop yourself as a multi-talent ICT specialist.

For further information, call Ms. Sanna Leppäluoto at S&S Consulting, tel. +358 50 344 6864.

Please submit your application and CV in English, with your salary request through the link below by 21st August 2017. Please fill in the application form carefully, especially your personal information and work experience.
