Requirements for settlement banks

- Technical requirements for settlement banks:
 - A bank domiciled in Denmark, Finland, Iceland, Norway or Sweden (including a branch of such a bank, the branch operating in Denmark, Finland, Iceland, Norway or Sweden)
 - Member of SWIFT or operating through another SWIFT member
 - Ability to execute Request for Transfer instruction / MT101 with Same Day Value according to eSett's schedule
 - Ability to include remittance information from incoming MT101 in outgoing payment
 - Ability to report balances in MT940 format according to eSett's schedule
 - Valid Settlement Bank Agreement with eSett
 - Valid bilateral agreement with eSett's bank (Nordea) for execution of Request for Transfer transactions
- Rating requirements for settlement banks:
 - The Settlement Bank needs to be rated by at least one of the three major rating agencies (Fitch, Moody's or Standard & Poor's) and the rating must be on at least the following level:
 - Standard & Poor's: long term rating "A-"
 - Moody's: long term rating "A3"
 - Fitch: long term rating "A-"
 - If the Settlement Bank is rated by several agencies, at least one of the ratings must be on the aforementioned level and the lowest rating must be at least BBB+ (Fitch, Standard & Poor's) or Baa1 (Moody's).
